CONGRESS

Expected to Turn Down the Big Northern Securities Deal.

Parallel Roads are Opening

It is Recognized as a Vulnerable Point Upon Which the Opposition May Center Its Attack. Statesmen Now Down to Work.

Special by wire to Times-Democrat. Washington, Dec. 3.—The joint session of the Senate and House, called to order by the President at 10:50 o'clock this morning.

Mr. Sherman called the House to order. After prayer by the chaplain, the reading of the Declaration of Independence followed.

CONGRESS

It is believed, Knock Out the Northern Securities Deal.

Washington, Dec. 3.—It is believed that the joint session of the Senate and House will put its veto on the great million dollar northern road deal, which means the end of the great railways of the country.

A DELUGE

Thrown Into the Hopper of the House.

Washington, Dec. 3.—It was estimated that the House will have a large number of bills introduced today, and that the session will be a busy one.

HELPLESS

and Her Starving Crew Rescued.

Rescued Three Weeks on the Atlantic.

Members of the Crew Fell to Suffocation, the Result of the Bursting of Oil Tanks.

Special by wire to Times-Democrat.

City, N. J., Dec. 3.—The remains of a woman and her crew were rescued from the wreck of the ship "The Italian" off the coast of New Jersey.

Special by wire to Times-Democrat.

At New Orleans—Senator Bruce, Democrat, St. Louis, Ohio, The Sluger, Democrat.

TARIFFS

Paid by Shippers of the United States

On Traffic to and from the Philippines,

Will be Refunded If Paid Under Protest, Says Senator Foraker. The Senior Ohio Senator Interviewed.

Special by wire to Times-Democrat. Washington, Dec. 3.—Senator Foraker, author of the Porto Rico tariff act, gives the following as his interpretation of the supreme court decisions of yesterday. "The decisions are in perfect harmony with the decisions of last May. So far as the Philippines are concerned they are simply held to be not foreign territory but domestic territory, within the meaning of our tariff laws, but the supreme court holds that congress can legislate in regard to the Philippines, just as congress has already legislated in regard to Porto Rico. The only difference between Porto Rico and the Philippines is that we have already legislated in one case and have not in other. Tariffs paid by shippers to and from the Philippines will be refunded if paid under protest."

STOWAWAY

Is Rescued, Half Dead from Hunger.

Is Now in a Hospital and is Now Unconscious.

Was Boxed Up in Germany and Spent Fifteen Days in the Hold of Trans-Atlantic Freight Steamer.

New York, Dec. 3.—When a longshoreman dropped into the hold of the steamer Palatia of the Hamburg-American line, just arrived at the Hoboken docks, he was startled to hear a weak voice call for water. Summoning assistance he made a search and found a man lying across some salt sacks. Investigation shows that the stranger had been boxed up in Germany in a packing case marked "J. B. 71." In the case was a small bottle which had contained whisky and also some crumbs of bread. A piece of paper was found marked "John Beck." The box was marked in German "This side up with care." There were no airholes in the case and the hatch to the hold had not been opened from the time the Palatia left port. It is thought that during the last of the trip the stowaway became so frenzied that he broke out of the box and there was no way for him to give the alarm. The man was well dressed, evidently a German, about 30 years old. He had less than a dollar in his pockets. The Palatia is a freighter, very slow, and was longer than usual in making this trip. It is believed the man was in the hold at least 15 days. He is now unconscious at a hospital.

ENGLISHMEN EXPELLED

Washington, Dec. 3.—Mail advices from the Philippines are to the effect that the military authorities have been obliged to expel all the agents of English houses at Manila from the islands of Samar and Leyte, as they have been engaging in traffic with rebellious natives. It is expected that the British consul will refer this matter to London for instructions, but no serious trouble is apprehended.

STEAMERS IN COLLISION

London, Dec. 3.—The British steamer Broadbent, while outward bound from Antwerp for Baltimore, was badly damaged by collision with the German steamer Greif, which was also badly damaged. The British steamer Hanover, from Philadelphia Nov. 16 for Gravesend and Hamburg, is ashore at the Nore at the entrance of the river Thames.

KID MCCOY'S FATE

London, Dec. 3.—At Mile End "Kid" McCoy, the American pugilist, carried out his engagement to defeat any three heavyweights, each within four rounds. This offer was especially open to Jack O'Brien, who, however, did not respond to it. McCoy disposed of Dave Barry of Philadelphia in two rounds, of Jack Scates of England in 20 seconds, and of Jack Madden of Boston in four rounds.

GIRL ACCIDENTALLY KILLED

Kissimmee, Fla., Dec. 3.—Miss Belle Steffo was shot and instantly killed at her home on Springle creek, about three miles from here, and Harry Kin-dall is probably mortally wounded. He was starting hunting, and it is supposed, shot Miss Steffo accidentally, then attempted suicide. They were second cousins and the best of friends.

BILL

For Regulation of Tariff

Is Taken Up

For Final Action of the Reichstag.

Count Von Buelow, Imperial Chancellor, Opens the Debate.

Country About to Enter a Period of Intense Political Disturbance and Industrial Depression.

Berlin, Dec. 3.—Count Von Buelow, the imperial chancellor, in introducing the greatest parliamentary struggle that Germany has ever faced, counseled the members of the Reichstag to moderation of language, declaring that the eyes of the world were upon them. Although this was Germany's affair, said Count Von Buelow, it was necessary to maintain a resolute front to the other nations of the world. Allusion was made to the United States in the course of the debate on the subject. The tariff experiences of the United States and the pressure of American competition constitute a menace for argument upon either side of the question. "Brot wasser" (bread usury), or the raising of the price of bread, is to be the battle word of the manufacturing capitalists and the Socialists alike, who, by a curious turn of politics, now unite in passionate opposition to a bill that primarily increases the cost of foodstuffs.

Every individual small interest throughout Germany that is adversely affected by the tariff bill is organized against this bill. Popular and irresponsible sentiment gathers around these compact and highly organized fighting units. This opposition to the measure is more powerful outside than inside of the German parliament. While the government is aware of and feels the opposition, it also recognizes and sees that the present period of industrial calamity in Germany is an opportune time to press a measure raising the cost of food. The government is so pledged to the agrarian party, so completely committed to the measure, that it feels it can not recede therefrom or postpone its consideration. Consequently the ministry entered upon the debate determined to see the thing through, but with no cheerfulness of spirit. It is believed Germany is about to enter upon as intense a period of political disturbance as existed in Great Britain during the corn law agitation.

FRANCE AND UNCLE SAM

Paris, Dec. 3.—The report of the commission on the budget and foreign affairs reveals the relations of France with foreign countries. This report says: "The ancient friendship of France with free America, which is revived by the memory of Lafayette, can not fail to be precious to us at a time when the United States are endeavoring to move a movement of expansion and forming, by taking possession of Cuba, Porto Rico and the Philippines, a colonial domain which will create with France relations at once neighborly, immediate and constant."

DEMOCRATIC POLICY

Washington, Dec. 3.—Representative Hay of Virginia, chairman of the house Democratic caucus, announced the following special committee, as called for by the Democratic caucus last Saturday to consider a number of resolutions relative to the policy of the Democratic members of the house: Messrs. Richardson (Tenn.), DeArmond (Mo.), Williams (Miss.), Robertson (La.), Swanson (Va.), McClellan (N. Y.), Newlands (Nev.), Underwood (Ala.), Williams (Ill.), Henry (Tex.), Howard (Ga.), Thayer (Mass.). The committee is to report to a house caucus on Jan. 13.

RUN ON A BANK

Macon, Ga., Dec. 3.—A run was made on the Bank of Barnesville, Ga., because of the closing down of the Barnesville Manufacturing company and the Hanson-Crowley company, the latter owned by the former, and both being cotton mills. The run was checked, as the depositors became assured the bank was solvent. Expert accountants are now at work on the books of the mills, and the statement is given out that their assets exceed liabilities by \$100,000.

SWITCHMEN'S STRIKE

Pittsburg, Dec. 3.—Conditions in the switchmen's strike remain without change on either side. The Allegheny Valley officials claim that five strikers have deserted and returned to work. The strikers' committee announced that two roads, the Pittsburg and Western and the Monongahela connection, have agreed to compromise, and that this concession will likely bring about a general conference which will end the strike.

ACTIVE

Warfare Still Continues in Samar.

Gunboats Used in Destroying Bold Smugglers.

Salt Factories and Tons of Rice and Hemp Destroyed by Gunboat Quieres.—Natives Join the U. S. Army.

Special by wire to Times-Democrat. Manila, Dec. 3.—Everywhere in the islands of Samar, the Americans are waging active warfare. The gunboat Frolic, Lieutenant Commander Helm in command, destroyed 147 boats during November. The boats had been used by the Filipinos to smuggle supplies to the insurgents. Lieutenant Fletcher and a small crew of the small gunboats, Quieres, destroyed 12 salt factories and many tons of rice and hemp which had been gathered by insurgents. Five hundred natives volunteered to fight with the Americans. They are on scouting duty under Lieutenant Compton.

LIVE STOCK MARKETS.

Special by wire to Times-Democrat. Chicago, Dec. 3.—Cattle 5,000, steady; hogs 60,000, 5c lower; sheep 27,000, steady.

MUST

Serve Sentence That Would Expire

Had He Taken Dose When First Offered.

James Considine, Theatrical Manager, Has a Five Years' Term in the Penitentiary Facing Him.

Special by wire to Times-Democrat. Cincinnati, Dec. 3.—An important case was decided by the United States Circuit Court of Appeals Tuesday. That of James Considine, present theatrical manager, who in December, 1900, was convicted of robbing the post office at Granville, Ohio, in October, 1896, and given five years in the penitentiary. Many grounds of error were alleged, but they were overruled and the court affirmed the sentence of five years.

AFTER THE ANARCHISTS.

Washington, Dec. 3.—Senator Burrows of Michigan will introduce a bill providing for the exclusion and expulsion of alien anarchists. By its provisions the board of inquiry is authorized to diligently search for anarchists among the foreigners coming to this country and ascertain as to his antecedents, his opinions as to governments, or whether he belongs to any society or association with anarchistic tendencies; and it may examine the person of such alien for marks indicative of such membership. The board may accept evidence of the immigrant's common reputation as an anarchist, and orders, decrees and judgments of foreign governments and police notifications as prima facie evidence, which may be deemed sufficient to prevent admission of such alien.

ANTI-PRUSSIAN AGITATION.

Vienna, Dec. 3.—Owing to the recent anti-Prussian agitation in the province of Galicia and at the capital, Cracow, Baron Speechardt, the German consul at Lemberg, Galicia, has returned to Berlin. It is reported this step was taken under government orders on account of the hostile demonstration against the German consul. It is reported here that Germany has notified Austria of her intention to withdraw the German consulate at Lemberg altogether. The emperor, Francis Joseph, has summoned the leaders of the Polish party in the Reichstag and has appealed to them to exercise their influence to lessen this anti-Prussian feeling.

FREIGHT DEPOT DAMAGED.

Indianapolis, Dec. 3.—A fire which broke out in the north end of the Four depot on South Delaware street for a time threatened the entire destruction of the mammoth building. The entire fire department was called out and succeeded in confining the flames to the general freight offices and extreme north end of the building. General Superintendent Van Winkle says the loss will hardly exceed \$25,000.

GRAIN AND PORK MARKETS.

Special by wire to Times-Democrat. Chicago, Dec. 3.—Closing May wheat 78 1/8; corn 65 1/4; oats 43 1/4; pork 10.37.

INSULAR

Test Cases Decided by the United States Supreme Court.

Government Wins and Loses.

The Philippine Islands Held to be American Territory and Exempt from the Tariff Law —Foraker Act Again Declared to be Fair.

Washington, Dec. 3.—The opinions of the court

rendered in the United States supreme court were the last two of the insular test cases. One of them was that known as the "fourteen diamond ring" case, involving the relationship of the United States to the Philippine Islands from a tariff point of view, and the other what is known as the Dooley case No. 2, involving the constitutionality of the collection of duty on goods shipped from New York to Porto Rico. In the former case the court, through Chief Justice Fuller, held that the diamond rings brought in from the Philippines and over which the case arose, should have been exempt from duty under the Paris treaty of peace, as that treaty made the Philippines American territory. The decision in the Philippine case followed closely that of the first Porto Rican case of last term. In the Dooley case it was held that the duty collected on goods carried from New York to Porto Rico was permissible, but that it was in reality a tax for the benefit of the Porto Ricans themselves rather than an export duty, as was claimed by the merchants who antagonized the government in the case. In both cases there were dissenting opinions concurred in by four of the nine justices of the court.

It is generally believed that the finding in the Philippine case will lead to early efforts to secure legislation for the regulation of our commercial relations with those islands. As the Porto Rican opinion sustains the constitutionality of the Foraker act, no such necessity will arise with reference to Porto Rico.

Secretary Root declined to express an opinion as to the effect of the insular decisions in the supreme court, until he has had an opportunity to read them in full. Figures obtained at the war department and treasury bureau of statistics relative to the beginning of United States occupancy of the Philippines, Aug. 22, 1898, up to June 30 last, the total imports in the Philippines from the United States were valued at \$1,067,486, while during the same period the imports from Spain were valued at \$1,934,990. On the other hand, the imports into the United States from the Philippines from Sept. 1, 1898, to Dec. 1, 1901, aggregated \$15,438,409. But of this large total only \$1,894,523 consisted of dutiable goods, so that the refund on these would not be large.

VICTORY

Won by Osteopaths in Supreme Court

And They Can Now Practice Unrestrained.

Provision of Medical Law Holding Osteopathy to be a Violation is Knocked Out at Columbus.

Special by wire to Times-Democrat.

Columbus, O., Dec. 3.—The Supreme Court today knocked out the provision of medical law of Ohio, which sought to prohibit the practice of osteopathy. Henry H. Gravett had been indicted in Dark county for violations of the law, in that he practiced osteopathy, which was contended to be practice of medicine without license. Osteopathy may now be practiced with a free hand.

AMERICAN LEAGUE ELECTIONS.

Chicago, Dec. 3.—At a meeting of the moguls of the American Baseball league, Ban Johnson was re-elected president, with Charles W. Somers vice president. To the board of directors was elected Philadelphia, Boston, Detroit and Cleveland. It was decided the playing season should consist of 140 games, as heretofore. The season will open April 23 and end Oct. 5. There was a discussion of holiday dates, but no action was taken, as the schedule does not come up until the spring meeting. The reported signing of Pitcher Dineen by the Boston club of the American league brought up the question of the blacklist, but the magnates asserted it had not been reached as yet. Charles Somers asserts he has not signed Dineen.

STUDENTS DEMONSTRATE.

Cleveland, Dec. 3.—Cass school students started out to celebrate their recent football victory over Western Reserve university. They soon captured two Western Reserve professors, whom they made kneel on the top of tar barrels and beg for their release. They admitted that they were out for a fight with the Reserve men and assaulted the latter's dormitory with sticks and stones, doing considerable damage. Next several Reserve students were captured, among whom were James Mickelthwaite of Columbus, a law student, and they started for down town on an electric car. James McCleary, captain of the Reserve team, appeared on the car and at the point of a revolver rescued Mickelthwaite.

PAYMASTER MISSING.

Vincennes, Ind., Dec. 3.—R. W. Frear, paymaster for a new railroad

at Pockahontas, Ark., en route west from a visit to his young wife in Virginia, has been mysteriously missing since Saturday. There is nothing in his personal affairs in his room at the Avenue hotel to indicate his home or relatives. He had several hundred dollars on his person. Foul play is suspected, as the authorities can find no trace of him.

THREE BOUTS.

Milwaukee, Dec. 3.—A. Weinig of Buffalo was given the decision over Billy Stitt of Chicago after six fierce rounds before the Milwaukee Boxing club. "Batling" Nelson of Chicago and Joe Perence of Kenosha went six rounds to a draw, and Kid Black of Chicago knocked out Al Gear of this city in the fourth round. Sixteen hundred persons witnessed the bouts.

SUDDENLY STRICKEN.

Colorado Springs, Dec. 3.—Mrs. Maud Ballington Booth of the Volunteers of America was stricken while delivering an address before the students of Colorado college and was taken to the home of Senator Selmonridge. The trouble is a complication of the heart caused by the excessive altitude. Her condition has improved somewhat.

GOULD-KELLY.

New York, Dec. 3.—Frank Jay Gould, youngest son of the late Jay Gould, and Miss Helen Kelly, daughter of the late Edward Kelly, were married at the Kelly residence, this city. Owing to the death recently of Commodore Kelly the wedding was without display. Only members of the two families were present.

HEAVY DIAMOND ROBBERY.

New York, Dec. 3.—Burglars entered the residence of Heinrich Conried, manager of the Irving Place theater, while the family was at dinner, and secured nearly \$8,000 worth of diamonds and jewelry. Included in the stuff taken were five medals presented in Europe to Mr. Conried in recognition of his services in promoting art.

RAILWAY APPOINTMENT.

Indianapolis, Dec. 3.—Benjamin F. Kelsey, for a number of years city ticket agent of the Big Four here, has been appointed traveling passenger agent, with headquarters in Marion, O. He will have charge of the Cleveland division, succeeding Captain D. M. Patterson.

STRUCK A ROCK.

Seattle, Dec. 3.—The steam steamer Skagif Chief struck the Blakely rocks, near Pleasant Beach, in a heavy fog, and is a total wreck. Boats were lowered and the passengers were taken safely ashore. The steamer was valued at \$30,000.

KILLED BY A BURGlar.

Cleveland, Dec. 3.—Emile Goodman, a tailor, was shot and killed by a burglar, who had entered his store for the purpose of robbery.

TURT WINNERS.

At New Orleans—Lou Woods, Swinderman, Donnanay, Tom Collins, Uter, Menace.

PRESIDENT'S MESSAGE.

His Recommendations to the Congress on Many Subjects

PROBLEM OF RECIPROCITY

While Favoring the Principle, He Opposes Any General Tariff Change.

THE TREATMENT OF TRUSTS.

He Deems Publicity the Only Sure Remedy That Can Now Be Evoked.

Reduction of Tariff Duties on Cuban Imports into This Country Especially Advocated—Construction of Irrigation Works by the National Government Urged—Importance of Building the Isthmian Canal and the Pacific Cable—Monroe Doctrine Should Be Cardinal Feature of All America—The Philippine Problem. Re-enactment of Chinese Exclusion Act Advised—Remedial Action Urged For Our Merchant Marine—Preservation of Forests.

The Senate and House of Representatives. Congress assembled this year under the new law of great solemnity. On the 1st of September President McKinley was inaugurated. He was inaugurated at the American Exposition at Buffalo and held in that city on the 15th of that month.

Of the last seven elected presidents he is the third who has been inaugurated in the month of September. The inauguration of President McKinley was a great event. He was inaugurated at the American Exposition at Buffalo and held in that city on the 15th of that month.

Corrupted criminal belonging to that body of criminals who object to all governments, good and bad alike, who are against the people and the law, and who are guaranteed by even the most just and liberal laws and who are as hostile to the upright exponent of a free people's sober will as to the tyrannical and irresponsible despot.

It is not too much to say that at the time of President McKinley's death he was the most widely loved man in all the United States, while we have never had any public man of his position who has been so wholly free from the bitter animosities incident to public life. His political opponents were the first to bear the heaviest and most generous tribute to the broad kindness of nature, the sweetness and gentleness of character which so endeared him to his close associates. To a staunchness of lofty integrity in public life he united the tender affections and home virtues which are all important in the make up of national character. A gallant soldier in the great war for the Union, he also shone as an example to all our people because of his conduct in the most sacred and intimate of home relations. There could be no personal hatred of him for he never acted with aught but consideration for the welfare of others. No one could fail to respect him who knew him in public or private life. The defenders of those murderous criminals who seek to excuse their criminality by asserting that it is exercised for political ends, and against wealth and irresponsibility, point out that for this assumption even this base apology cannot be urged.

The Object of the Blow. President McKinley was a man of moderate means, a man whose stock sprang from the sturdy tillers of the soil who had himself belonged among the wage-workers, who had entered the army as a private soldier. Wealth was not struck at when the president was assassinated, but the blow which he received was a blow to the heart. It was a blow to the heart of a man who had spent a lifetime of unremitting labor largely in the service of the public. Still less was power struck at in the sense that power is irresponsible or centered in the hands of any one individual. The blow was not aimed at tyranny or wealth. It was aimed at one of the strongest champions the wage-worker has ever had, at one of the most faithful representatives of the cause of public rights and representative government who has ever risen to public office. President McKinley filled that political office for which the entire people vote and to which not even McKinley himself was ever a representative anxious to represent the well thought out wishes of the people. His one anxiety in every crisis was to keep in closest touch with the people, to find out what they thought and to endeavor to give expression to their tacit but ever existing endeavor to guide that thought right. He had just been re-elected to the presidency because the major part of our citizens, the majority of our farmers and wage-workers believed that he had faithfully upheld their interests for four years. They felt themselves in close and intimate touch with him. They felt that he represented so well and so honorably all their ideals and aspirations that they wished him to continue for another four years to represent them.

And this was the man at whom the assassin struck. That there might be nothing lacking to complete the tragedy, the assassin of his act he took advantage of an occasion when the president was meeting the people generally and advancing to take the hand outstretched to him in friendly and brotherly fellowship he turned the people and generous confidence of the victim into an opportunity to strike the fatal blow. There is no baser deed in all the annals of crime.

A Glorious Death.

The shock, the grief of the country are bitter in the minds of all who saw the brave days while the president stood between life and death. At last the light was shed in the kindly eyes and the

breath went from the lips that even in mortal agony uttered no words save forgiveness to his murderer, of love for his friends and of unfaltering trust in the will of the Most High. Such a death crowning the glory of such a life leaves us with infinite sorrow, but with such pride in what he had accomplished and in his own personal character that we feel the blow not as struck at him, but as struck at the nation. We mourn a good and great president who is dead, but while we mourn we are lifted up by the splendid achievements of his life and the grand heroism with which he met his death.

When we turn from the man to the nation, the harm done is so great as to excite our gravest apprehensions and to demand our best and most resolute action. This criminal was a professed anarchist, inflamed by the teachings of professed anarchists and probably also by the reckless utterances of those who on the stump and in the public press appeal to the dark and evil spirits of malice and greed, and of self-hatred. The wind is sowed by the men who preach such doctrines and they cannot escape their share of responsibility for the subsequent dance of death. They apply alike to the deliberate drug-peddler, to the exploiter of sensationalism and to the crude and foolish politicians who for whatever reason apologize for crime or extenuate its enormity.

The blow was aimed not at this president but at all presidents at every symbol of government. President McKinley was as emphatically the embodiment of the popular will of the nation expressed through the forms of law as a New England town meeting is in similar fashion the embodiment of the law abiding purposes and practices of the people of the town. On no conceivable theory could the murder of the president be accepted as due to protest against 'inequalities in the social order' save as the murder of the freedom engaged in a town meeting could be accepted as a protest against social inequality which puts a ruler over a man. Anarchy is no more an expression of social discontent than picking pockets or wife beating.

Anarchy and Anarchists. The anarchist and especially the anarchist in the United States is merely one type of criminal, more dangerous than any other because he represents the same depravity in a greater degree. The man who advocates anarchy directly or indirectly in any shape or fashion or the man who apologizes for anarchists and their deeds, makes himself morally accessory to murder before the fact. The anarchist is a criminal whose perverted instincts lead him to prefer confusion and chaos to the most beneficent form of social order. His protest of concern for workmen is out of place in its impudent falsity for if the political institutions of this country are to afford opportunity to every honest and intelligent man to tell then the door of hope is forever closed against him. The anarchist is everywhere not far from the center of every system and of progress, but the deadly foe of liberty. If ever anarchy triumphs, its triumph will last for but one red moment to be succeeded for ages by the gloomy night of despotism.

For the anarchist himself, whether he preaches or practices his doctrine, we need not have one particle more concern than for any ordinary murderer. He is not the victim of social or political injustice. There are no reasons to excuse his case. The cause of his criminality is to be found in his own evil passions and in the evil conduct of those who urge him on not in any failure by others or in the state to do justice to him or his kind. He is a malefactor and nothing else. He is in no way a social disorganizer, a 'product of social conditions' save as a high woman is produced by the fact that an unmarried man happens to have a child. It is a travesty upon the great and holy names of liberty and freedom to permit them to be blighted in such a case. No man or

body of men preaching anarchistic doctrines should be allowed at large any more than if preaching the murder of some specified private individual. Anarchistic speeches, writings and meetings are essentially seditious and treasonable.

Should Keep Anarchists Out.

I earnestly recommend to the Congress that in the exercise of its wise discretion it should take into consideration the coming to this country of anarchists or persons professing principles hostile to all government and justifying the murder of those placed in authority. Such individuals as those who not long ago gathered in open meeting to glorify the murder of King Edward as the best trade for crime and the law should insure their rigorous punishment. They and those like them should be kept out of this country, and if found here they should be promptly deported to the country whence they came, and far-reaching provision should be made for the punishment of those who stay. No matter called urgently for the wisest thought of the Congress.

The federal courts should be given jurisdiction over any man who kills or attempts to kill the president or any man who by the exertion or by law is in line of succession for the presidency, while the perpetrator for an unsuccessful attempt should be proportioned to the enormity of the offense against our institutions.

Anarchy is a Crime Against the Whole Human Race.

Anarchy is a crime against the whole human race and all mankind should band against the anarchist. His crime should be made an offense against the law of nations, like piracy and that form of man-stealing known as the slave trade for crime of far greater enormity than either. It should be declared by treaties among all civilized powers. Such treaties would give to the federal government the power of dealing with the crime.

HAVING FUN WITH HIS NAME

Ernest Seton-Thompson Not Objected to by the Author.

After all it is Ernest Seton-Thompson. The name will be kept as a nom de plume, says a Chicago dispatch to the New York World. He has ten brothers, and twenty years ago they all agreed to change their name by process of law. They were scattered throughout the world, and for some reason the step was not taken.

Krause's Headache Capsules

are unlike anything prepared in America. They were first prescribed by Dr. Krause, German's famous court physician long before anti-pyrene was discovered and are almost marvellous so speedily do they cure the most distressing cases. Price 25c. Sold by Wm. M. McVillie old post office corner.

Why He is a Suburbanite.

You should strive to teach your children patience. I realize that said Mr. Bayon. It was my purpose in taking up my residence on a suburban car line—Washington St.

A. J. Snell wanted to attend a party but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says, 'I was telling my troubles to a lady friend who said Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party. I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party. Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by Wm. M. McVillie old post office corner.

Wigg—It's queer how time flies. Wagg—Yes, you would think that clocks ought to have wings instead of hands and feet.

The Gospel.

According to medicine, we seek the truth wherever it is found, on Christian or on heathen ground. We are not ashamed to confess that 'St. Bernard Vegetable Pills' are not our or indeed, any modern doctor's formula. Their formula was known, ere their use became popularized by the monks of St. Bernard, and it is in honor of their venerable patron saint, the most important fact about them is that as an appetizer, blood purifier, liver and kidney tonic, nothing equals them.

Dr. Humphreys.

After fifty years Dr. Humphreys' Specifics enjoy the greatest popularity and largest sale in their history, due to intrinsic merit. They cure the sick.

Must Close Out!

Every Pair of Shoes in my Store to be Sold at a Sacrifice.

Having purchased a Boot and Shoe Store in Upper Sandusky and intending to permanently locate there, I will conduct a GRAND CLOSING OUT SALE.

Beginning Dec. 4th

And continuing until December 28th. Everything must be closed out. Goods will be offered at cost and below, which means that you can buy your Winter Footwear at and below the price I paid to the manufacturer. This is certainly a magnificent opportunity and we are sure the people of Lima and vicinity will take advantage of this great sale. Goods are all new and of up-to-date style—besides, the quality is of the very best.

Remember this great sale opens December 4th and closes December 28th. The stock is most complete. Come before the sizes are broken, so that you can get your

Winter Shoes

At Competition prices.

I will also offer for sale all the store fixtures after December 28th.

ANTHONY VOGEL,

138 S. Main St., (Hohl B'k) LIMA, O.

Our Great Clearance Sale!

Has been such a success that we will continue it. Our stock is still entirely too large for the room, we have and must be greatly reduced. The low prices we have been giving has crowded our store every day with eager buyers. The same and even lower prices will prevail this week. Every article sold helps to sell others because purchasers are always completely satisfied and tell the good news to their friends.

We sell everything a lady or child wears, except shoes, and it would take too much space to name prices on every article, but we want to give a few so you can see we are actually offering big bargains.

Ladies' fine \$18 and \$20 long and short Coats and Raglans at \$15.

All \$10 and \$15 long and short Coats for \$7.50 and \$11.50. We have nice garments that are cheaper.

Twenty per cent discount on all children's long and short wraps. We have the prettiest child's wrap at \$2.75 you ever saw. It is made out of fine cloth, real long, trimmed in braid, fancy stitched, sailor collar.

All our \$15 Fur Scarfs for \$12; \$10 Scarfs for \$7.50 and others proportionately cheap. We have a leader at \$2.75.

We have a big stock of Fur Collars and Muffs for children that we will sell at cost during this sale.

We have a big assortment of French Flannel, Silks, Albatros and fleece lined Waists. The \$6 kind goes in this sale for \$4; the \$4.75 kind at \$3.25 and so on down the line. We have beauties at 50c each.

Every one of our large stock of silk and cloth Dress and Walking Skirts will be sold at cost during this sale. Every one of them is new, made with the flared flounce, and can't help but please you.

We have nice Underwear at 25c; finer at 75c and \$1.00. You will surely want some of our \$1.50 Outing Flannel Gowns at 98c.

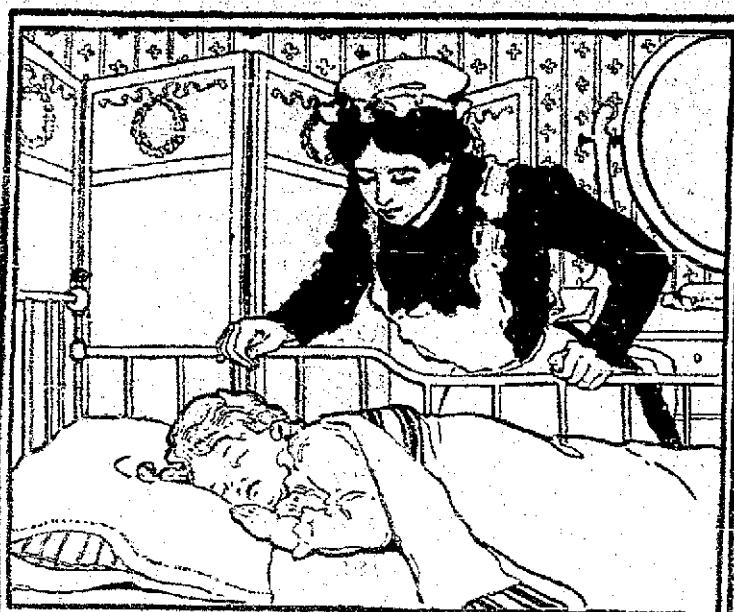

This sale is positively on every article in the store and the goods will move at the prices we are giving. Coming early and get choice.

Millinery, Trimmings, Children's Silk and Knit Hoods, Tamoshanters, Stocking Caps, Infants' Dresses and Wraps, Golf and Woolen Mittens.

Hose, Pillow Tops, Cords, Everything.

Come in and select your Christmas presents and have them laid away. We have a nice selection of novelties.

TAXATION A LIVE ISSUE.

The Democratic party is gradually working around to where it was when Grover Cleveland was elected on the tariff issue, says the Toledo Bee, and proceeded to kick over the milk pail by sidetracking tariff reform and monkeying with the financial problem. The tariff issue was put on the shelf in 1890 just as the people of this country were beginning to see that protection wasn't getting them any money and that the evolution of international relations was pointing toward absolute freedom of trade.

Blaine tried to show his party how to take the wind out of Democracy's sails when he smashed his hat. But the party was wedded to paternalism and class legislation.

McKinley pointed out the right path for his party in his last public utterance, his Buffalo speech. But the trusts, otherwise known to fame and politics as "our infant industries," have the party organization by the throat, and McKinley's suggestion will be ignored and the privileged classes entrenched more strongly than ever in power.

Now is the time for the Democratic party to push fundamental principles of democracy to the front. The tariff question is a question of taxation, and places the burden on the backs of those least able to bear it. Taxation is a live issue, and the demand for equal taxation will grow louder and stronger each day. Democracy demands tariff reform and an income tax. It demands equal rights for all and special privileges to none. And if the party keeps its democracy straight the people will again place it in power.

MORTGAGE

For \$3,000,000 Filed by Western Ohio.

Money Borrowed to Meet Building Expenses

And a Copy Must be Filed With the Recorder of Every County Through Which the Road Passes.

A copy of a mortgage for \$3,000,000 has been filed with county recorder Mell, by the Western Ohio Railway company to the Savings and Trust company of Toledo. The railway company is organized for the purpose of constructing, owning and operating electric street railroads in western Ohio and for this purpose the company states it had to borrow money and to issue bonds to secure its payment. At a meeting held in Cleveland on November 25, or a week ago yesterday, it was determined it was essential to secure these bonds by a mortgage or deed of trust upon all property owned by the company. It is necessary to file a copy of the mortgage in every county through which the road passes.

In Session Tomorrow.

The investigating court of five members, appointed for the purpose of inquiring into the charges made against Prosecuting Attorney Klinger, will be in session again at the court room tomorrow. When the court adjourned last Thursday, the statement was given out that anyone who had any further charges to make would be given until noon Saturday to do so, and the session tomorrow will be to consider these charges, if any such have been made. If not the court will again go into executive session and pass upon what has already been submitted.

Deeds For the Lots.

WEDDING

Of a Lima Couple at Independence, Mo.

Miss Elizabeth Moore, Bride of Mr. Alf Baxter.

Bride and Groom Go to Old Mexico on a Wedding Tour—The Marriage a Surprise to Their Friends at Home.

A wedding announcement that will be of great surprise to the many friends of the happy bride and groom in this city has been received from Independence, Missouri, where, on last Sunday, Miss Elizabeth Moore, the accomplished daughter of Col. I. T. Moore, of west Market street, became the bride of Mr. Alf Baxter. The wedding ceremony was performed by the Rev. Chaney, an uncle of the groom, who formerly lived in this city and is now pastor of a church in Independence.

The bride was accompanied to the West by her mother and they met Mr. Baxter at Independence but the secret of their intended wedding was cleverly kept from even their most intimate friends in this city.

Mr. and Mrs. Baxter will make a wedding tour in Old Mexico, accompanied by the bride's mother and will be absent from home for several weeks. Upon their return to this city Mr. and Mrs. Baxter will be at home to their legion of friends at Oak Hall, the groom's handsome residence on south McDonell street.

TONIGHT

Princess Bonnie is to be Presented.

Last Rehearsal Promises That Lima Talent Will Do Credit to the Composers.

The final rehearsal of "Princess Bonnie" took place last night and the members of the cast and chorus were alive to the fact. Every thing went smoothly and there was but little for the prompter to do, so thoroughly familiar were the characters with the speaking parts. The real test is yet to come, however, and if those who are to make their initial bow before the footlights escape the spasm of stage fright, the beautiful opera which earned so much applause for Francis Wilson, will afford the big audience to-night a most enjoyable treat. Tomorrow the big company goes to St. Marys, where the opera is to be produced. The train will leave Lima at 4:28 p. m. and tickets were issued to all who take part last night.

The impression has been created in some way that Miss Alice White, who takes the part of "Kitty," is a professional, but while is indeed very clever, and enough better than some who rank as professionals, her experience has been confined altogether to amateur entertainments. It is the desire of Prof. Clark and Lull, as well as of Miss White, to correct the impression that has become current.

OFFICERS

Elected by Banner Tent, K. O. T. M. Last Evening.

At the regular meeting of Banner Tent No. 355, Knights of the Macabees, held in the Donze hall last evening, the following officers, who will be installed at a public installation and entertainment to be held in the hall on the first Monday night in January, were elected:

PILED

Up the Cars on the Clover Leaf.

Costly Wreck in the Delphos Yards

And One of the Brakemen Sustained Severe but Not Fatal Injuries as a Result of the Accident.

The Clover Leaf had a bad smash up in the Delphos yards yesterday morning, several cars being piled up and splintered, and brakeman Frank Starner had his left leg broken and left arm injured. The freight train that was wrecked was hurrying to get to a siding to permit the passenger to get by, when a car loaded with pig lead, jumped the track and before the brakes could be applied, other cars piled up in a bad mess and the debris and merchandise was scattered over four tracks, completely shutting off all traffic and the passenger train was held for two hours. Brakeman Starner was standing on top of one of the cars and ran to get clear but they piled up so rapidly that he was thrown to the ground and fell across the rails of the adjoining track. He was compelled to crawl on his hands and knees to get clear of the wreck.

Engineer Louis Schwartz, of the L. E. & W., who has been one of the west local runs for several weeks, has returned to the through freight service and engineer Dolan has taken the west local run.

Engineer John Fink, of the L. E. & W., who has been running the steam shovel at Hartford City, Ind., has finished the work there and in company with his wife arrived home Saturday.

General Notes.

Fireman Perkins, of the Pennsylvania, was attacked by dizziness yesterday while making a trip on the road and fell from the cab near Elida. He was considerably bruised by the fall, but no bones were broken. He is now at St. Joseph hospital in Fort Wayne.

A Smashing Record.

Engineer H. A. Durnell made a record with a class E12 engine on the Pittsburg road Saturday night that is not likely to be broken for some time. With engine 33, hauling train No. 24, nine cars, Mr. Durnell made the run from Larwill to Fort Wayne, 27.9 miles, in 24 minutes. The 19.4 miles from Columbia City to Fort Wayne were covered in 16 minutes, and a part of that distance it is believed that the train attained the speed of 105 miles an hour. For six miles of the distance the average speed was 36.4 miles per hour—Fort Wayne's Sentinel.

Accident Caused It.

Sam Strong, an old man living between Pleasant Hill and Covington, attempted suicide by hanging early Sunday morning, says the Troy Record. He was discovered and cut down in time to save him. Seven or eight years ago Mr. Strong was hit by a train on the crossing of the C. H. & D. branch line and since that time he has not been himself. After the attempt he was badly out of mind and became quite violent. A close watch is being kept over him lest he make another attempt.

SERIOUS ILLNESS

Of a Prominent Methodist Minister.

Rev. Amos Upp, pastor of the First M. E. church of Crestline, Ohio, is lying at the point of death, with catarrhal pneumonia and the doctors say he can not get well. He is an uncle to Mr. and Mrs. V. A. Brundige, of the First Christian church.

HEALTH CULTURE LECTURES.

Mrs. Lucia Julian Martin is in the city arranging for a series of illustrated parlor lectures before the club and society ladies of Lima, on the Flynn system of health, culture, and the perfect body. The lectures will occur during the week, the homes and hours to be announced later. A competent teacher will accompany the lecturer and at the close of the lecture, classes will be organized. The course is highly educational and has been successfully introduced into the best homes and among the teachers of Toledo, Tiffin, Findlay, Fostoria, Marion, Mansfield, and other cities and the Lima ladies and gentlemen will not be behind in recognizing its superior advantages.

DEATH

Claims an Old Resident of Allen County.

William H. Garretson Passes Away in Terre Haute, Ind.—The Funeral Tomorrow.

William H. Garretson, a former resident of this city, passed away at his home in Terre Haute shortly before 8 o'clock yesterday morning. The remains were brought to this city this morning at 8 o'clock over the C. H. & D. and taken to the home of his brother, I. Garretson, of west Eureka street. The funeral services will be held tomorrow morning at 10 o'clock from Perry chapel, situated about three miles east of Lima on the Westminister road. Rev. Maltbie will officiate.

William Garretson was 65 years of age. He was born in this county and spent many years of his life in the vicinity of Lima. He had many friends in life who will feel keenly the great loss they sustain through his death. The deceased leaves a wife and one son, Walter C. Garretson, to mourn their irreparable loss.

November Bills Reported by Finance Committee and Allowed.

Policeman Jake Shook Reinstated Upon Recommendation of the Police Committee—City Council Session.

President Davis of the city council was absent when that body convened last night and Mr. Overly was selected to officiate as chairman, a duty that he performed in a very clever and efficient manner.

The proposition to take a portion of the Ed. Baker farm out of the city limits and re-annex the land to Perry township, was agreed to by the county commissioners and the solicitor was instructed to prepare an ordinance for the transfer.

The Indian band belonging to the "Flaming Arrow" company was playing in front of the opera house and made so much noise after the council had gone into its session that the orators could not be heard. Some one made a motion to appoint Messrs. Hoyt and Hauge a committee of two to stop the music. The motion was carried in the spirit of fun and immediately the music ceased.

On motion the sewer workers were granted an appropriation of \$7 for the purpose of constructing a shanty in which they can eat their dinners with more comfort during cold weather.

The police committee recommended that the solicitor proceed to secure the return of property belonging to the city that is being withheld by two former members of the police department.

The paving committee recommended the acceptance of the Market street paving and that second sewer connections be made at once. Adopted.

Report of light committee rejecting the proposition to remove a light on north Pierce street was adopted. The committee also made the following additional recommendations which were adopted: That an are light be placed at Main and Spring streets, one at Main and O'Connor avenue and that gas lights be placed at Wayne street and Maple Lane, one north of the C. & E. on South Main street and one near 1025 North Main street.

The police committee recommended that police officer Jake Shook, who was suspended from duty for striking Henry O'Neill with his club, be reinstated. The committee indicated by

its report that it did not consider officer Shook the aggressor but did think that he used his club too vigorously. The recommendation of the committee was adopted.

The solicitor was asked whether or not the officer was entitled to receiving salary for the time he was under suspension awaiting a hearing and Mr. Henderson replied that he would prepare a written report on the matter.

Messrs. Hoyt and Sherman, as a majority of the members of the fire committee recommended that the appointments made by the mayor to fill vacancies of the fire department be confirmed. Mr. Shannahan, another member of the committee, said that no meeting of the committee had been held for the purpose of considering the appointments. There was considerable discussion on this point and then Mr. Jameson moved to confirm the appointments. An amendment to refer the appointments back to the committee was lost and the motion to confirm was carried by a vote of 9 yeas and 3 nays. Messrs. Shannahan, Scully and Overly voting no.

Water works trustees reported for November:

Amount on hand	\$8,768.96
Collected	6,506.17
Disbursed	4,175.86
Balance	11,099.34

The finance committee reported bills on the different funds for November as follows:

Fire fund	\$1,020.38
General fund	1,543.00
Light fund	1,680.57
Police fund	1,007.39
Poor fund	97.45
Sanitary fund	208.48
Sewer fund	1,832.30
Sidewalk fund	344.68
Special street improvement	103.24
Street fund	2,863.23
E. McKibben paving	82.62
West High paving	6,000.00
West Wayne paving	2,799.01
Buckeye & Cherry Allen pav.	2,411.12
	\$23,796.67

Ordinance fixing rates for illuminating gas at 75c per thousand beginning January 1st, 1902, was read the second time.

Cherry alley property owners objected to payment of assessment for grading same until the work is properly done. Referred to solicitor and engineer.

Claim of James Caddy of \$108 for services as patrolman was referred to solicitor.

Action relative to new walks on West Eureka street was reconsidered and passed for new grade.

Specifications for Tailinger sewer were adopted.

Solicitor said when Ohio Southern was granted use of Sugar street same agreed to grade and stone the street from High street to the P. W. & C. road but that the work had never been done. The clerk was instructed to notify the company to comply with the terms of the franchise.

Mr. Sherman asked for information concerning the restrictions enforced by the city against the drilling of oil wells in the city.

Solicitor said wells could not be drilled within 400 feet of any building under penalty of from \$500 to \$1,000.

There was a question whether the cleaning out of an old well would come within the meaning of the ordinance.

Mr. Sherman had reference to the citizens well at Pine street and the bridge. The city should protect the people. He moved to instruct the solicitor and mayor to enforce the ordinance.

Solicitor said court has not passed on the matter but if a well is operated as a nuisance it can be stopped.

JOYFUL MATERNITY.

Hopeful Words to Childless Women. Two Grateful Women Tell How They Were Helped by Lydia E. Pinkham's Vegetable Compound.

How shall a mother who is weak and sick with some female trouble bear healthy children?

How anxious women ought to be to give their children the blessing of a good constitution!

Many women long for a child to bless their home, but because of some debility or displacement of the female organs, they are barren. Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the parts, curing all displacements and inflammation.

Actual sterility in women is very rare. If any woman thinks she is sterile, let her write to Mrs. Pinkham, Lynn, Mass., whose advice is given free to all expectant or would-be mothers.

**\$5000
REWARD**

Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank of Lynn, Mass., \$5000, which will be paid to any person who will show that the following testimonials are not genuine, or were published before obtaining the writers' special permission.—LYDIA E. PINKHAM MEDICINE CO., Lynn, Mass.

The Story of Mrs. De Bett and Her Baby Girl.

"DEAR MRS. PINKHAM:—Before I took your medicine I suffered for years. Life to me was a torture. I often wished I were dead. I had no children, and the doctor said I never could have. Menstruation was very painful, also suffered with severe pains in left ovary, had pains in my back and heart, terrible headaches, and weakness of the kidneys. I tried everything, had womb dilated twice but that did no good. I got discouraged and concluded to let the doctors go and try your medicine. After writing to you explaining my case, I followed your advice carefully and with the result that I never felt so well in all my life. I am indeed a new woman and have a lovely little baby girl which is the happiness of my home. I feel that I owe my life to Lydia E. Pinkham's Medicine, and feel very proud to recommend it to others. I hope that many others will follow my example and that homes may be brightened as mine has."—Mrs. LUCY DE BETT, 503 S. Halstead St., Chicago, Ill. (March 1, 1901.)

"DEAR MRS. PINKHAM:—I must write and tell you what your Vegetable Compound has done for me. Before taking your medicine I was unable to carry a babe to maturity, having lost two—one at six months and one at seven. The doctor said next time I would die, but thanks to Lydia E. Pinkham's Vegetable Compound, I did not die, but am the proud mother of a six months old girl baby. She weighs nineteen pounds and has never seen a sick day in her life. She is the delight of our home."—Mrs. A. D. JARNEY, Belmont, Ohio.

ORIGIN OF POPULAR PHRASE

How "Go 'Way Back and Sit Down" Was First Used.

"The popular phrase, 'Go 'way back and sit down,' has been credited to many sources," said a music publisher to a reporter of the New York Sun, "but the true story has never been printed.

"One night about a year ago several colored sports gathered in a saloon in the Tenderloin owned by a negro and patronized chiefly by men of his own race. In the party were Smithy, the tenor, and Bully, the tont. Smithy came from the west and dressed in the height of fashion, while Bully's home was in the south.

"Bully had had quite a turn of ill luck, and his attire suffered in consequence. Smithy began kidding him about it. Finally Bully got angry. He sized Smithy up from head to foot for a few seconds and then said:

"'Yo' am er dude, yo' am,' he began contemptuously. 'Yo' done come round here an' try to lit de folks know dat yo' am livin' on easy street.

"'Don't yo' ank man, dat dem horses am a-gwine to run fo' yo' in de snow dis winter. Yo' ain't no steel rod. Yo' kin git broke.

"'Say, nigger, do yo' see dat chair yonder by dat stove? Take mah advice an' go 'way back an' sit down, an' w'en yo' git dere stay dere an' don't come back no more tonight. Understand, honey?'

"Smithy did go 'way back and sit down and was out heard of the rest of the night. Al Johns, a colored musician, who was present, thought the phrase was unique, and the next day he told Elmer Bowman, a negro song writer, about it.

"Johns thought it would make a good title for a song, so Bowman wrote some verses which Johns put to music. In the story of the song Bowman stuck to the incidents that took place in the saloon that night, and when the song was published it at once became popular.

"The phrase was used a good deal by the opposite political parties in the last campaign."

FATE OF THE DECLARATION

Text and Signatures to the Original Copy Have Faded Away.

The original copy of the Declaration of Independence is no more, according to a Washington dispatch to the New York Sun. The stirring text and the signatures of the members of the Continental congress have faded away. This precious document is preserved in a cabinet in the state department library, but it is now practically nothing more than a large sheet of parchment. Part of the words, "Declaration of Independence," which were written in large letters with many ornamental flourishes, are decipherable, but not a signature is visible to the naked eye. One hardly discernible stroke of John Hancock's pen is all that remains of his bold and vigorous autograph, which he purposely made large, so as to show the British government that he had no fear of being known.

The Declaration is preserved in a narrow drawer, glass covered, which slides in a steel safe with heavy double doors, locked by a combination. After its removal to the state department from Independence hall in Philadelphia, where the Continental congress held its session on July 4, 1776, the Declaration was placed in a glass case and exposed to the view of visitors. Owing to the strong light to which it was subjected it began to fade, and it was then removed to the drawer in which it is now preserved. This was several years ago. The fading continued, however, until now the noted document is nothing more apparently than a mere blank sheet of paper.

Jefferson's original draft of the Declaration, with insertions in the hand, writing of Franklin and John Adams, is still exposed to public view in the same case where the formal document was formerly on exhibition. Strangely enough, the ink on this draft has not faded. The writing is still as clear as it was 125 years ago, when Jefferson and the other members of the drafting committee wrote the words that bade defiance to the British crown.

SANURY

VERSUS

ALL OTHER REMEDIES

All other remedies for kidney troubles merely flush the kidneys. They merely wash them out. The causes of the foul conditions existing in the kidneys and urinary organs and, as a result, in the blood itself, are not removed. After the flushing the same conditions recur. SANURY is different. SANURY possesses wonderful germicidal properties which combat the causes of disease and eradicate them.

When taking Sanury, drink plenty of water. Sanury will drink the water to the kidneys and the kidneys will be flushed. But the flushing of the kidneys is the least that Sanury does. Sanury cures the disease; cures it effectually, so that it don't come back.

PLANNED BY DESERTERS

Was the Massacre of Company C. Bold on Samar.

Washington, Dec. 3.—According to Manila newspapers, copies of which have been received at the war department, the massacre of Company C, Ninth Infantry, at Balangiga, Samar, was planned by deserters from the American army. The newspapers state that two such deserters are known to have acted as spies two days before the massacre. It is said that when the Ninth infantry was relieved by the Ninth on the island of Samar, these deserters obtained some uniforms which had got adrift during the transfer, and thus equipped passed as American regulars. Deserters in Samar are becoming very bold. It is stated, and it is no infrequent sight to find notices written in English, posted on trees and shrubbery, inviting Americans to join the insurgents, and instructing them how to enlist. It is also said to be a generally understood fact that deserters from the Ninth cavalry (colored) are responsible for all the trouble the American troops have been having in Batangas province.

General Reyes' Attitude.

Washington, Dec. 3.—Dr. Martinez Silva, the Colombian minister to the United States, who with General Rafael Reyes, has been representing his country at the pan-American conference at the City of Mexico, has returned to Washington. He says that General Reyes has not yet determined whether he will return to Colombia for the purpose of assuming the presidency of that country in place of Mr. Marroquin, the vice president, who is now acting as the chief executive. General Reyes has been given assurance of support if he will take the office by both wings of the Conservative party, but he is awaiting some definite and reliable advice of the same character from the Liberal leaders before determining just what to do.

Respondent Editor's Deed.

Toledo, Dec. 3.—Wilbur P. Clark, 27, for the past five weeks telegraph editor of The Times, committed suicide by taking laudanum. Last August, while employed on a Buffalo paper, Clark was married to Miss Victoria Kriehoff of Detroit, but owing to her parents' objections she never lived with Clark. Despondency due to his domestic troubles induced Clark to take his own life. He had worked on papers in Detroit, New York and Kansas City.

McKinley Resolutions.

Washington, Dec. 3.—Resolutions respecting the late President McKinley were introduced in the house of representatives by Representative Grosvenor, simultaneously with the introduction by Mr. Foraker in the senate of the same resolutions. The isthmian canal bill will come in later. Representative Hepburn of Iowa saying that it would not be deferred until the organization of the committee on interstate and foreign commerce.

Governor Van Sant Moving.

St. Paul, Dec. 3.—The following statement was given out at the governor's office: Governor Van Sant reports that he has been informed by Attorney General Douglas that from the investigations made he has decided to institute legal proceedings in opposition to the proposed consolidation of railroad interests, and that the papers are in process of preparation.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. J. B. Hunt of Lima Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful stomach, liver, and kidney remedy. Cures Dyspepsia, loss of appetite. Try it. Only 50 cents. Guaranteed. For sale by H. F. Vorkamp drug store.

THERE ARE MANY ROADS

The Finger Points Marking the Many By-paths of Present Day Troubles. All Seem to Point the Same Way—Lack of Nerve Force.

Day-by-day the columns of this paper bring new evidence from Lima people of the great work being done by Dr. A. W. Chase's Nerve Pills. Why they accomplish so much is easily explained, they are prepared with an eye single to restoring Nerve Force. They accomplish this object which no other medicine in the world has ever been able to do. That's why hundreds of Lima people offer their testimony.

Mr. H. Stroupe, of 439 north Elizabeth street, Lima, Ohio, says: "My trouble is an old one, a sort of epileptic trouble, very nervous, seizures coming on with heavy nervous trembling in the morning. I felt the only way to overcome these seizures was to build up the nervous system. I got Dr. A. W. Chase's Nerve Pills at W. M. Melville's drug store and they have done remarkably well by me. I feel stronger, steadier, brighter every way and the attacks lighter and further apart. I feel this building up that the Nerve Pills are giving me can not help but result rightly."

TWIN TROUBLES

They are Often Together These Days. They Work Havoc All Over the Country and in Lima.

Weak, nervous, the digestion out of order, that is what ails a host of people. It comes about this way—First from overwork or other causes, the nerves are hardened beyond endurance—nerve waste is not replaced, nerve force is weakened, then the stomach loses its nerve controlling

The reason why Dr. A. W. Chase's Nerve Pills reach the great mass of human ills where others fail, is because this phenomenally brilliant physician foresaw the tendency of the age to hurry, to overdo, to overstrain, to neglect of one's self—Realized it meant nerve exhaustion, nerve collapse, and provided a cure—Knew that the first slight symptoms—weariness, disinclination to work, flagging appetite and loss of energy would pass unnoticed—Knew they would grow into a settled depression, mental foginess, forgetfulness, nervousness, dizziness, heart irregularities and an inability to sleep—and so constructed the Nerve Pills that they meet the situation fully—not by whipping or stimulation, but by the common sense plan of supplying to the nerves and tissue that which folly has robbed them of. Under their splendid re-invigorating power, one rests, one sleeps, the nerves grow quiet and steady, the heart action strong and regular, digestion perfect, the mind clear, and the body strong and vigorous.

EASILY UNDERSTOOD

The Close Sympathetic Connection Between the Nervous and Digestive Systems Accounts for Much Difficulty.

The great influence the nerves have on digestion is noted in case of sudden shock or fright. No matter how good the appetite it disappears. Nerve trouble practically controls digestion in the production of gastric juice. When nerve force is lacking, digestion is impaired, that is why Dr. A. W. Chase's Nerve Pills restore from many stomach troubles, they restore nerve force.

Mrs. R. M. Lego, of 720 north Broadway street, Lima, Ohio, says: "After eating I was in distress and very faint, then I wanted to go and eat, but nothing satisfied me and very nervous, a nervous dyspepsia it was. I was told to take Dr. A. W. Chase's Nerve Pills and did so, getting them from Dr. A. W. Chase's medicine Co., Buffalo, N. Y. The pills straightened out all my trouble and I eat and enjoy my food. The pills are steady and I feel well."

Dr. A. W. Chase's Nerve Pills are sold at five a box at dealers, or Dr. A. W. Chase's Medicine Co., Buffalo, N. Y. The portrait and signature of A. W. Chase, M. D., are on every package.

Fall Short of the Expectations Of Operators.

Record of November in Cildom.

Quite a Number of Important Deals Made During the Month.

Over \$500,000 Worth of Property Has Changed Hands—The Volume of Operations Has Not Decreased.

The round-up for the month of November in the crude oil business will be interesting in more ways than one. While trading was not active in petroleum circles during November, as in some other periods during the year yet it was not devoid of interest. The large trade in Indiana made up for some minor details in other parts. On the whole, in the Trenton rock fields says the Toledo Times, over a half million dollars' worth changed hands. Prices in all deals were fully maintained. It has become quite clear to producers here, who have been in the habit of selling properties, that they have under rather than overrated the value of their possessions. It seems also quite clear that, no matter what price is paid for oil production in this country, there appears but little, if any, chance of losing. More time may be required than at first anticipated, but the property generally gets there. The volume of operations has not decreased and the drill is still at work with all haste. The results have been in some sections quite disappointing, in no particular has daily outputs been materially increased, no matter how many wells have been completed. Hancock county is a fair specimen of this kind. The drill has been in motion there to a degree never witnessed before and yet its daily runs have been increased but little. The large wells are reported with alacrity, but the many dry holes and small wells are seldom taken note of. After all, it is the small well that must be depended upon to maintain the output. The large well is only one against 100. The ninety and nine perform the service, therefore, that producers require.

It is clear that the pools in Indiana that were expected to make rich returns are not fulfilling their promises in a satisfactory measure. That of Marion is a fair sample. While with time the trade will no doubt realize some profits, yet they must be necessarily small compared with what were expected at the beginning. The wells, as a rule, are large water producers, and must be pumped constantly. But they are small in oil yield at best, and cannot accomplish much in elevating the generally daily output.

The volume of new operations is well sustained in all fields. For the month of November there was quite a drift to certain sections, while at others that were a few months ago very lively the drill is now inactive. In Wood county, Ohio, the section southwest of Bowling Green around the Leverton farm, where new derricks a few months ago were as thick as bristles on the spine of a razorback, nothing is doing. The drift has been to Portage. Then to the section east of Findlay in Hancock. Rawson and Bluffton in the same county have been brought to special notice. North of Bluffton in the edge of Putnam another fair strike has been made by Stearns, and naturally this will tend to excite the nerves of the local trade so that an increase of operations there may be expected in the near future.

In all of the fields that produce light oil there has been great activity during the past six months especially. This is shown by the report of operations appended, showing the ratio per month of completed wells. It winds up with an average for the 11 months of the year of 1,049 per month. This would be 34 2/3 per day. That is a pretty good average. If the weather remains open to the end of the year there is no doubt but the volume of new operations will be maintained at the highest point.

IN THE FAR WEST.

The old fields of Washington territory are not showing up in the manner hoped for by the boomers last summer. The deepest well is owned by the Pugh Southwest Tacoma. It is 1,000 feet deep with a show for the last 300 feet. It is evidently a failure. Besides this one there are four other wells in various stages of progression down to 1,000 feet. One is owned by the Pacific Oil Well company, located at Fairhaven, the other three are at North Beach, north of Gray's harbor. The Eldorado Oil company has started a well eight miles north of Oeyhut on the Pacific coast of the Olympic Peninsula.

responsible for these investments is beginning to be viewed with distrust. The California industry is in a state of rest at the present time. A great effort is being made to secure lower rates for transportation to consumers from the railroads. But the roads are fighting the process with energy. They are trying to show that it is not a matter of lower freights, but of less oil that troubles the business. Over production has killed it dead. It was a foregone conclusion when the rush began in that state. The same is true of Texas. They now have 105 guishers at Beaumont and before the year closes will probably have 45 more. This will fulfill the predictions of The Times, that by the first of the year wells at Spindletop.

It is true the fuel industry is increasing at a rapid pace. In due time a market should be found for the greater part of the production. "Due time" is an indefinite term. It may run to one, two, or three years. Months roll away very quickly in this business and in a new field especially, the work of preparing facilities for the movement of oil is necessarily slow. But in Texas no time is being lost. The manufacturers are beginning to act from an economic standpoint. They are figuring rapidly on comparative cost and are beginning to see that they cannot afford to miss the great opportunity this mighty agent now affords.

happy over the arrival of a 9-pound boy.

People on Second street were given a rare treat Sunday—a real live policeman walked down that thoroughfare, honest.

The south side is soon to have an additional church. Rev. G. W. Gomer, of Lafayette, has been her proselyting, having already secured a membership of about fifty. A building fund of three hundred dollars has been so far subscribed. A philanthropic person imbued with the belief of the church, which is of the Christian denomination, has donated a lot on the south side, upon which to erect the house of worship. It is quite probable that upon the completion of the organization of the new congregation Rev. Gomer will be called to the pastorate. He is an able gentleman, whose administrations while in this locality will terminate in material benefit to the proposed church.

The following named persons have been inducted into their respective offices in Jewel commandery of the Red Cross society. The installation was conducted by state organizer, Regan. The officials are: Commander Calvert; Lieutenant Commander, Redman; Scribe, Russell; Financier, Cuff; Prelate, Kennedy; Sergeant, Carnes. The customary quietude of St. Johns avenue was rudely broken in upon yesterday by two discordant families in close proximity to the railway. The entanglement developed out of a neighborhood controversy of long duration. Yesterday the disputants' contentions became so animated that a policeman was called to quell the disturbance during which altercation a fistful encounter figured prominently. A reconciliation was effected thus obviating arrests. Before the officer left harmony was completely restored.

Upon the occasion of his birthday anniversary, a number of friends assembled at the home of Henry Dean, on south Central avenue, Sunday evening to congratulate him upon the event. He was completely surprised, but soon composed himself sufficiently to acknowledge the felicitations of his guests. The evening's urbanity was mutually enjoyable. The jovial celebrant extended a hearty reception to all present. Festivities continued with good cheer until late. Mr. Dean was the recipient of a number of appreciated tokens of esteem. Mesdames J. S. Shaffer and C. W. Ardinger, having gone to Noblesville, Ind., to attend the obsequies of Frank Spangler, formerly resident here.

Chester Dean is seriously ill at the home of his parents on south Central avenue. Miss Ora Parlette, of south Central avenue, returned yesterday from Unionopolis, where she completed a special engagement to sing during the revival services conducted by Rev. Underwood, of the south side. Her vocalism merited for her many congratulations. She will be invited to participate in other evangelistic meetings.

Was the Live Stock Exposition at Chicago—Fellacious Remarks.

Chicago, Dec. 3.—The International live stock exposition opened here before an appreciative crowd, which filled the Dexter park amphitheater. Mayor Harrison, Secretary of Agriculture Wilson, Governor Yates and R. W. Hall of Texas spoke in the order given. A parade of prize-winning horses and a concert preceded the speechmaking. Mayor Harrison delivered an address of welcome, in which he said that in no city on earth could a cattleman be more welcome than in the city which boasts the greatest cattle market in the world. Secretary Wilson was greeted with loud applause. His remarks were largely on the value of the cattle business in the United States. He said that the cattle exports last year were worth \$50,000,000, but the great market was at home "among our own people and under our own flag."

Mrs. Bonine's Defense.

Washington, Dec. 3.—The defense in the case of Mrs. Lola Ida Bonine, charged with the murder of James Seymour Ayres, resumed the introduction of testimony and placed 15 witnesses on the stand. The line of examination showed that the purpose was to establish that Mrs. Bonine evinced no particular partiality toward Ayres, and that her conduct and bearing toward him differed in no respect from that displayed toward other guests of the hotel.

Student's Rash Deed.

Louisville, Dec. 3.—Pulton B. Harris, a student at the Louisville dental college, committed suicide at Eastern park by shooting himself. He left letters to his mother and to a young woman at Carlisle, Ky., which, however, did not explain his act, though they indicated low spirits. Harris' mother came from Carlisle to Louisville to be with him while he pursued his studies.

Against a Reduction.

Terre Haute, Dec. 3.—One hundred and fifty of the employees in the wood-working department of the American Car and Foundry company struck because of a reduction in prices paid for piece work. Unless the difficulty is settled soon several hundred more will be idle.

McGovern and Corbett to Meet.

New York, Dec. 3.—Representatives of Terry McGovern and Young Corbett will meet in this city next Saturday to decide the question of a return match between the featherweight pugilists. Two offers have been made for a fight, one of which was a \$10,000 purse.

Disastrous Collision.

St. Petersburg, Dec. 3.—In a railroad collision near Kharbin 18 Chinese and seven Russians were killed. Two of the latter were frozen to death.

Ernest Burress Arrested at
Piqua for Breaking the
Conductor's Leg.

The Latter Endeavored to Put Him
Off the Train but He Showed
Fight and Escaped by
Swimming Canal.

Detective Watts, of the C. H. & D., and Chief of Police O'Leary, of Sidney, after careful investigation, have placed a man named Ernest Burress, under arrest at Piqua and will hold him for trial on the charge of assaulting Conductor Hagdon. Burress, whose home is in Sidney, has been identified as the man who pulled Hagdon off of the train, the fall breaking his leg. The affair happened near Troy, where Burress was ordered off the train for not paying his fare. He refused to go and conductor Hagdon, in attempting to eject him, got into a fight with the above mentioned result. The other railroad men got after Burress, but he escaped by swimming the canal.

He went to his home in Sidney, but evidently fearing detection, left there and rounded up at Piqua where he secured employment at a livery stable, and it was there he was arrested. The officials took him to Troy and had him locked up. Sunday the crew in charge of the train when the struggle occurred, visited the jail and fully identified Burress as the guilty man. The prisoner, however, denies that he was on the train and declares he is entirely innocent. It is the intention of the railroad officials to prosecute Burress to the fullest extent of the law.

MEETING

Of the Lima Dental Society
Held Last Night.

An Interesting Paper Presented by
Dr. Bedford—Next Meeting to
be Held January Sixth.

The regular monthly meeting of the Lima Dental Society was held last evening in Dr. Strayer's office with the following members present: Drs. Jones, Strayer, Bennett, Gray, Bedford, and Taylor. After the regular business of the meeting, a paper was presented by Dr. Bedford, the subject being, "Our Patients." The paper was an interesting production and was thoroughly discussed by the other members of the society. The annual banquet of the society has been postponed on account of the illness of some of the members. The next meeting will be held in Dr. Bedford's office, January 6, at which Dr. Taylor will present a paper.

FATALLY

Crushed Under Wheels of a
Western Ohio Train.

While hopping on the dirt cars of the Western Ohio Electric Railway north of Wapakoneta, with several boys little Harry Sullivan, ten years old, son of Mrs. Kate Sullivan, fell under the wheels and was badly crushed. He died Sunday night before his mother, who was in Dayton, could get to Lima. When picked up the boy was worried about what his mother would say and begged those carrying him to kill him.

SETTLED

With Constable and Then
Went to Next Stand.

The goods of the Williams and Walker production which appeared at the Faurot Saturday night were attached late the same night on a writ of breach of contract preferred by the manager of the Fremont opera house. The manager of the colored organization is alleged to have made a contract with the Fremont manager and even sent the "paper" otherwise known as lithographs and other forms of advertising on to Fremont. The management did its part at some expense and at the finish the W. & W. show went to Bowling Green last Friday night instead of to Fremont. The matter was settled in a few hours.

"SI. PLUNKARD"

On Wednesday evening that everlasting success, "Si. Plunkard" will be the bill at the Faurot, with J. C. (Farmer) Lewis in his original character. The famous "rube" band is still a feature. Popular prices will prevail.

RUNAWAY

Prevented Daring High-
way Robbery.

Horse Became Frightened at
a Pistol Shot.

Eli Shoemaker and G. P. Steiner
were Thrown from Their Buggy
But Both Escaped from
the Highwaymen.

Highwaymen tried to hold up Eli Shoemaker and G. P. Steiner, two miles north of Bluffton, Saturday night as they were driving from that place to Findlay. The highwaymen jumped into the road and ordered the occupants of the buggy to halt. The driver refused to stop and whipped up the horse. The robbers responded with a shot and the noise and flash of the revolver frightened the horse which started to run away and, making a short turn, threw the men out of the buggy. Mr. Shoemaker came off unhurt and ran down the road, thinking Mr. Steiner was following. Mr. Steiner, however, was made unconscious by his contact with the ground and lay there for several minutes before he could move. When he recovered and help arrived it was found that his shoulder had been dislocated and he needed the services of a doctor. The highwaymen took to their heels and made good their escape. It is thought that they were members of the gang that tried to rob the Lake Erie and Western operator at Bluffton Friday night. The victims of the affair were unable to tell how many there were of their assailants as it was too dark to see.

TRIBUTE

Of Love and Respect is
Paid Today

To the Memory of the Late
Daniel McKerren.

Funeral Held from St. Rose Church
and the Services Attended by
Many of the Deceased's
Friends.

The last sad rites over the mortal remains of Daniel E. McKerren were held at St. Rose church this morning at 8:30 o'clock. Rev. J. B. Mooney sang the mass of Requiem and preached the funeral sermon, paying a most worthy tribute to the life of the deceased. The many tokens of respect which were in evidence at the obsequies were testimonials of the high esteem in which he was held, not only by his family but by his brother Knights, his employers, schoolmasters, and the large assemblage who gathered at the church this morning to show honor and respect for the dead. Commandery No. 201, Knights of St. John, attended the funeral in a body, the uniformed rank acting as a guard of honor. The floral emblems were many in number and grand in design. Among them was an emblem of the order from the Knights of St. John, and Gates Ajar and a large spray from the officials and employees of the Metropolitan bank. The class of 1901 graduates from St. Rose High school, of which he was a member, also attended the funeral services in a body. Present at the funeral from abroad were his brother, John McKerren, of Canton, the deceased's uncle, James and John McKerren, of Detroit, and an aunt, Mrs. Paul Lauterber and sons, James and Leo, of Sidney. The body was consigned to a place of rest in Gethsemani cemetery.

GOODING'S

\$1.50 SHOES

FOR YOUTHS AND BOYS.

This shoe needs more than telling about. You ought to see it—to handle it, and then you will not quite know how much better it is than the shoes the boy has been wearing until after he has worn a pair of them.

This Shoe is made from selected calfskin. It is thoroughly tanned, and is tougher than horsehide. It is lined with heavy drilling. The insole is made from a single piece of sole leather. The sole of the shoe is made from the very best quality oak tanned leather. It is sewed to the insole with the best Irish linen thread and will not rip. They come in sizes—Youths, 12 to 2. Boys, 2½ to 5½. These shoes are sold the world over for \$2. We ask \$1.50 a pair for them.

If, after the boy has worn a pair of these shoes, you are not satisfied that they are the best shoes you ever bought for the price, bring them back and get your money.
